5 Reasons We are Special

Fabric Innovation & Advanced R&D

Pioneer in synthetic, specialized in different fabric constructions, and advanced developments like 100% recycled polyester with elastane & innovation in nylon & nylon elastane.

Sustainability Commitment

Focus on reducing GHG emissions, water usage, and adopting renewable energy solutions like a 1.6 MWp off-grid solar system, reflecting a deep commitment to environmental responsibility.

Technology Integration

Integration of CLO software for virtual sampling, in-house chemical production, and sewing line automation to enhance production efficiency and quality.

Superior Product Quality

Achieving an impressive 87% RFT (Right First Time) in dyeing processes with a batch life of 0.8 and offering Teflon and other special finishes.

Global Certifications & Standards

Holding significant certifications like ZDHC, Blue-sign, and Blue Hive, underscoring the group's dedication to sustainable and ethical manufacturing practices.

Spinning

We produce two types of yarn:

01 | Open End

02 | Ring
(Carded, Combed
Compact, Slub)

Count Range

8 Ne ~ 40 Ne

7 OE ~ 20 OE

Certifications

RCS, GRS, GOTS, OCS, BCI, CMIA, Oeko Tex

We have all latest machinery from -

RIETER

TRÜTZSCHLER

TOYOTA

State-of-the-Art Laboratory

We have Uster-quality control laboratory set-up (Uster HVI-1000, AFIS Pro-2, Uster Tester-6, Uster Auto Sorter-5) and all other required testing machines to analyze the fabric samples and produce the yarn according to the buyer's expectations.

Sustainability Practices

GHG Emission Reduction

Divine Group achieved a 21% reduction in GHG emissions from 15,071,600 kg in 2019 to 10,377,250 kg in 2023, driven by continuous monitoring of CO₂ emissions per piece and a commitment to sustainable practices.

Reduce Water Consumption

Divine Group demonstrated its commitment to water conservation by achieving an average reduction of 2.14% in 2023 and 2.58% in 2024, with total water consumption recorded at 811,995 m³ in 2023 and 905,527 m³ in 2024 through continuous efficiency improvements and sustainable resource management.

Sustainable Raw Material

Divine Group prioritizes sustainable yarn and raw material usage by complying with **OEKO-TEX Standard 100, GOTS, Organic Content Standard, Global Recycled Standard, and Recycled 100 Claim Standard** while adhering to **BSCI, Sedex, ZDHC, Bluesign, LEED Gold, and Higg Index**, ensuring environmental responsibility, ethical sourcing, and a sustainable supply chain.

From The Desk of

Managing Director

Ever since our inception in 1996 it has been our sole purpose to produce high quality apparels made to meet the needs of the buyer, with inch-perfect accuracy and high reliability.

I can say with pride that Divine Group Ltd. is one of the few elite private sector business groups who have been able to balance high levels of quality, production and social responsibility. To the point that maintaining quality and social standards have become second nature to our operating procedures.

In conclusion, if I was to sum up this company in a few words, it would be that we are a family. From the managerial desks to the production floors, we are a family that synergizes together to be greater than the sum of its individual components, and we excel only through the dedication of all our members.

We're Here For You

Partner with Divine Group to revolutionize Fashion through innovation and passion. Reach to us to explore endless possibilities!
